

## Oral Motor Product Information

**Welcome to the Abilitations line of oral motor equipment.**

These products are designed to be used as part of a good sensory diet to provide organization and deep pressure through the use of biting/chewing, and promote good respiration with various grades of sucking or blowing. They are also just good fun! As with all oral motor products, use common sense when giving to children.

The following guidelines are recommended:

- Children should have adult supervision when using oral motor products.
- Most products are not recommended for children under 2 years of age.
- Many oral motor products are designed for individual users only and are not meant to be shared due to hygiene concerns.
- To clean the product use 1 part bleach to 10 parts water solution, then wash and/or wipe down. Allow to air dry.
- Discontinue use if any part shows excessive wear, chipping or cracking.

We hope you enjoy this product.
