Chrome Frame

Back of Contemporary Chair

With Seat and Back Pad

Take a seat in this high-back swivel stool chair, which combines contemporary-modern style with the science of posture-supportive ergonomics to accommodate every individual's needs and comfort. A footrest adds a leg-relaxing bonus, while the chair legs themselves can be adjusted in 1-inch increments between a little under 2 feet tall to nearly 2-3/4 feet tall with the aid of a Phillips locking adjustable bolt. User-friendly chair is also floor-friendly with internal swivel glides that keep stool legs wobble-free, evenly aligned, and less likely to hold onto dirt or dust, making this an ideal seating choice for labs or art rooms for Grade 5 and beyond.

FEATURES

- Ergonomically designed, one-piece, injection-molded, polypropylene shell with even color and subtle texture
- 15 contoured ribs provide greater flexibility at the upper back while supporting the lower back
